

IR/CATH LAB TABLE PAD

The TZ Medical IR Pad is the ideal solution for interventional labs, allowing for both patient comfort and optimal positioning for patient access. Instead of a one-size-fits-all approach, each mattress pad is a custom order to ensure it meets the needs of each individual lab.

Along with custom sizing, we also offer three wedge sizes that can be added to any order to further expand on the many positioning options.

Features

- Adjustable cushioned wedge can be moved for many patient configurations
- Antimicrobial surface
- Custom sizing at no additional charge
- 2", 3", and 4" thickness available
- Memory foam or Standard foam available

Item Number	Description	UOM
CZIRPAD	Custom IR/Cath Lab Table Pad	1 each
